

KEY FEATURES

**High Income Potential**

SDEM accesses 50 of the highest yielding stocks in the emerging markets, potentially increasing a portfolio's yield.

**Monthly Distributions**

SDEM makes distributions on a monthly basis, providing a regular source of income for a portfolio.

**Value with Growth**

Investing in high dividend yielding securities in the emerging market space combines a value-oriented investment approach with exposure to markets that are expected to grow at a faster pace than developed markets.

Hybrid SuperDividend Index ²	-33.03%	-33.03%	-29.76%	-3.96%	-2.51%

The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. Returns for periods greater than one year are annualized. Market price returns are based upon the midpoint of the bid/ask spread at the close of the exchange and do not represent the returns you would receive if you traded shares at other times. For performance data current to the most recent month end, please call 1-888-493-8631, or visit www.globalxetfs.com.

DEFINITIONS

MSCI Emerging Markets Top 50 Dividend Index	The MSCI Emerging Markets Top 50 Dividend Index is based on the MSCI Emerging Markets Index, its parent index, which includes large and mid-cap stocks across 23 Emerging Markets (EM) countries. The index aims to reflect the performance of 50 securities from the MSCI EM Index, selected by dividend yield that have increased or maintained their dividend per share compared to the previous year or have increased or maintained their payout ratio (defined as dividend per share/earnings per share) if the dividend per share has dropped by up to 10%.
MSCI ACWI Index	MSCI ACWI Index captures large and mid cap representation across 23 Developed Markets (DM) and 24 Emerging Markets (EM) countries. The index covers approximately 85% of the global investable equity opportunity set. DM countries include: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the UK and the US. EM countries include: Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Pakistan, Peru, Philippines, Poland, Russia, Qatar, South Africa, Taiwan, Thailand, Turkey and United Arab Emirates.
12-month Dividend Yield	The yield an investor would have received if they had held the fund over the last twelve months, assuming most recent NAV. The 12-month yield is calculated by summing any income distributions over the past twelve months and dividing by the sum of the most recent NAV.
Annualized Volatility	The annualized standard deviation of the daily returns of the security using the closing levels of the index during the 22 index-day period preceding that day.
Beta	Measures the volatility of the Fund price relative to the volatility in the market index and can also be defined as the percent change in the price of the Fund given a 1% change in the market index. A beta below one suggests that the fund was less volatile than the market benchmark.
Sharpe Ratio	Measures the return for each unit of risk. The risk free rate is subtracted from the mean return and is divided by the standard deviation of returns.

(1) The Fund's name, investment objective, and investment strategy changed effective November 16, 2016. The Fund inception date reflects the original inception date of the Fund when it was the Global X SuperDividend Emerging Markets ETF.
(2) The Hybrid SuperDividend Index consists of the INDX SuperDividend Emerging Markets Index from the inception of the Fund through November 15, 2016, and the MSCI Emerging Markets Top 50 Dividend Index going forward.

Global X Management Company, LLC serves as an advisor to the Global X Funds. The Funds are distributed by SEI Investments Distribution Co. (SIDCO, 1 Freedom Valley Drive, Oaks, PA, 19456), which is not affiliated with Global X Management Company, LLC or Mirae Asset Global Investments.

Investing involves risk, including the possible loss of principal. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles, or from economic or political instability in other nations. Emerging markets involve heightened risks related to the same factors as well as increased volatility and lower trading volume. High yielding stocks are often speculative, high-risk investments. These companies can be paying out more than they can support and may reduce their dividends or stop paying dividends at any time, which could have a material adverse effect on the stock price of these companies and the Fund's performance. Past distributions are not indicative of future distributions. There is no guarantee that dividends will be paid. SDEM is non-diversified. The information provided is not intended for trading purposes, and should not be considered investment advice.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Global X NAVs are calculated using prices as of 4:00 PM Eastern Time. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.

Global X Funds are not sponsored, endorsed, issued, sold or promoted by MSCI, nor does MSCI make any representations regarding the advisability of investing in the Global X Funds. Neither SIDCO, Global X nor Mirae Asset Global Investments are affiliated with MSCI.
